DATA FILES

Data are available in STATA (8.0) format. Data and electronic documentation are available on the MXFLS website.

Data is contained in folders, one for each household book. There are 11 folders. The folder names were assigned by the book prefix followed by the correspondent book initials. For   example,   in   the   Adult Characteristics book, section Tastes and habits are in iiib_gh.

The modules names were assigned by using the book initials prefix followed by the section denomination. For example, the section that corresponds to the cover of the Adult Characteristics book is denominated iiib_portad.

This book , Adult Household Member Characteristics, has 16 sections and 24 modules. The modules are the following ones:
