**TOPIC:** CHARACTERISTICS OF HOUSEHOLD MEMBERS NOT PRESENT AT INTERVIEW

### DATA FILES

Data are STATA (8.0) format. Data and electronic documentation are available on the MXFLS website.

Data is contained in folders, one for each household book. There are 11 folders. The folder names were assigned by the book prefix followed by the correspondent book initials. For example, in the Proxy book the Contraception section is in p\_ac.

The modules names were assigned by using the book initials prefix followed by the section denomination. For example, the section that corresponds to the cover of the Proxy book is denominated p\_portad.

This book, Proxy, has 20 sections and 27 modules. The modules are the following ones:
